Face Mask Policy

Masks will continue to be required in buildings through May 20, 2021.
When outside, masks are recommended but not required.

Students may remove their face mask:

- When outside.
- When participating in organized sports where the level of exertion makes wearing a face covering difficult.
- When participating in indoor physical exercise—such as the weight room or dance class—where the level of exertion makes wearing a face covering difficult, as long as social distancing can be maintained at all times.
- During practices or performances when a face covering cannot be used while playing a musical instrument, provided that social distancing is maintained.

Masks are optional beginning May 21st.
